### Description

#### **Route description:**

The tour starts with a steep ascent over ca. 15 kilometres to the Hahntennjoch ridge (1,894 m). It's a descent from there down to Elmen in Lechtal valley and then cycling out of the valley in the direction of Reutte to Stanzach. Once in Stanzach, follow a narrow picturesque alpine pass through the Namloser valley to Berwang. Continue to cycle downhill to Bichlbach via Lermoos and Biberwier until you reach the Fernpass road (B179). After a short ascent to the Fernpass Höhe peak, you will pass Nassereith and the Gurgltal and leisurely coast back to the starting point.

Duration: 3-4 hours
