Suitable for wheelchairs
Wheelchair accessible

Description

Swiss-Trac Tour:

Start at the car park opposite the fire station in Piller. From there, follow the tarmac road in the direction of Galflunalm. It is a straight road in the direction of a forested area for the next 0.5 km. The gravel path is a little loose and with a rougher surface here. Before reaching the woodland, turn off into a grassed path with some larger stones, which make for a bumpy ride. Leave this path after 300 metres and turn right on the path that takes you back to the village. Several larger water bars cross this path. After a few metres keep to the right and follow the path downhill, where, once again, several water bars cross the path. After half a kilometre, you will pass the sports grounds and return to your starting point within 300 m.
