Description

Starting from the Pitztal Bike (MTB 614), which winds its way through the entire Pitztal like a lifeline, this medium-difficulty route branches off at the Kienberg district in the direction of Jerzens. The forest path changes to an asphalt road for a short stretch through the centre of Jerzens and leads to the Kaitanger district. In several serpentine, the route first winds uphill along the forest road through the forest. The last section runs through light woodland and meadows to the Tanzalm, which is a serviced mountain pasture.
