forest path

Route type

- Circular hike
- Family hike
- Hike suitable for prams

Getting there

Take the bus till the bus stop Flließ Naturparkhaus.

For the arrival by car use the car park in front of the Nature Park house.

Description

As with the small Harbeweiber pond circular hike, with your back turned to the Nature Park Centre, turn right on the farm road in a southerly direction. Follow this road to a fork and also turn right in the direction of Harbeweiber pond. Unlike the small Harbeweiber pond circular route, continue to follow this road past a fantastic viewing point until you reach the Harbeweiber pond. This pond is an extremely untouched and wild, romantic area not far from the Nature Park Centre and lends itself perfectly for nature lovers who do not want to cover long distances. After a short ascent, you will have reached the highest point and can then return on a forest road to the other side of the Nature Park Centre.
